BIOLOGIC® SR2 - Odor Solution for the Nuisance

Made in Canada

Underwriter Laboratories

ISO:9001:2015

BIOLOGIC® SR2 is a plant-based blend of organic micronutrients (MNT) that stimulates specific bacteria species, enabling the **rapid elimination of odors** and reduction of biosolids through competitive inhibition. The micronutrient solutions contain no masking agents and is certified non-toxic to ensure the safety of the user and the environment.

Certified by third-party testing

Increased metabolic activity of living biomass.

Reduce (H₂S) odor.

Decrease sludge in wastewater treatment plants.

Features

- 0% Formaldehyde
- 0% Chemicals
- 0% Bacteria
- 0% Enzyme
- 0% Chlorine
- Eco-friendly

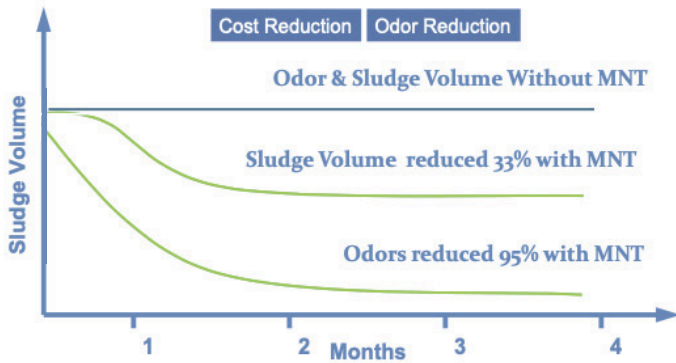

Applications

- Toilets
- Grease traps
- Food waste
- Refuse rooms
- Garbage trucks
- Wastewater treatment plants
- Landfills
- Transfer stations
- Biosolids processing facilities
- Food production plants

Procedure

1. Shake well before usage.
2. Spray regularly in the air and directly at toilets or other emitting sources.

MNT Performance Sludge Volume & Odor Reduction
